INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1948-49 edition of the Wilmington City Directory.

Confidence in the growth of Wilmington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 340, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Wilmington, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately pagged from 1 to 96, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilmington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 437 to 478, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, follows the Classified and is separately pagged from 1 to 74. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington.

The Wilmington Directory Library

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Location

Wilmington, county seat of New Hanover County, is situated in the southeastern part of North Carolina, on the east bank of the Cape Fear River, about thirty miles from the Atlantic Ocean. This distance from the ocean is due to the fact that the Cape Fear River flows from Wilmington in a southeasterly direction. The distance from Wilmington to the ocean, via highway, is only twelve miles. Wilmington is approximately 200 miles from Charlotte, 135 miles from Raleigh, 190 miles from Charleston, S. C., and 265 miles from Norfolk. It is the principal deep-water port in North Carolina, with a 32-foot channel from ocean bar to Wilmington, distance of 32 miles.

Swimming and Beaches

Excellent swimming facilities are available at ten popular ocean beach resorts in the immediate vicinity of Wilmington and at nearby sounds. Beach resorts include Carolina, Wrightsville, Fort Fisher, Kure's, Wilmington, Long, Caswell and Holden's beaches.

Fishing

Fishing is enhanced by the activities of the New Hanover Fishing Club, largest organization of its kind in America, with the annual Fishing Rodeo.

Aerial view of Wilmington, showing shipyard and other industrial plants in foreground; city and airport in background

July 1 to October 31, offering cash and equipment prizes. The proximity of the Gulf Stream and availability of fishing-party boats make deep-sea fishing a popular sport. Waltonites have a choice of casting from pier, Boat, strand or sound.

Post-War Years

During the war Wilmington was transformed from a staid city into one of the busiest and most important war-work centers in the entire Southern States. The end of the war left Wilmington at the crossroads. Through efforts of the many progressive business leaders, Wilmington is fast becoming one of the leading industrial and distribution centers in the post-war era. Many new peace-time manufacturing plants have located in this port city area.

Camp Davis

Camp Davis, at Holly Ridge, 29 miles northeast of Wilmington, was established by the U. S. Government in the spring of 1941, with formal opening in May. Here the Government assembled thousands of trainees and officers. Wilmington is the nearest city of any size to Camp Davis, which fact practically makes the Government reservation a local enterprise. In March, 1946, the Navy took over Camp Davis, to be used as a permanent proving ground of Naval Ordnance. Camp LeJeune, a permanent U. S. Marine Corps training base, 50 miles northeast of Wilmington, also is considered a local enterprise, for Wilmington serves thousands of enlisted and officer personnel from a week-end recreational and trading center.

Gardens

Nature-lovers thrill to the springtime beauty of the azalea and camellia gardens at Orton and Airlie plantations, and the colorful plants and moss-covered cypress at Greenfield Lake Gardens in the heart of Wilmington. Annual tours of outstanding gardens are conducted by the Garden Club. Private estates are visited by special arrangement. The annual Azalea Festival is held early in April.

Landmarks and Historic Ruins

Settled in 1730, Wilmington has many famous historical buildings and landmarks, including British General Cornwallis' Revolutionary War Headquarters; several of the oldest churches in America; the church where Woodrow Wilson worshipped as a youth; the birthplace of Whistler's mother; historic Fort Fisher; Orton Mansion, built in 1725; and Colonial church ruins.

Population Increase

Wilmington's population increased rapidly between 1940 and 1945. The U. S. Census of 1940 showed 33,407 within the city limits, while the 1945 estimate (ration books) showed 55,620. In 1940, the New Hanover County population was 47,935; in 1945, it was estimated at 80,000, based on ration board figures. The county population reached over 100,000 during 1942-43. The 1946 official U. S. Census Bureau estimate of the population of Wilmington was 47,483. Present population of New Hanover County is estimated at 71,100 and that of Wilmington is estimated at 50,000.

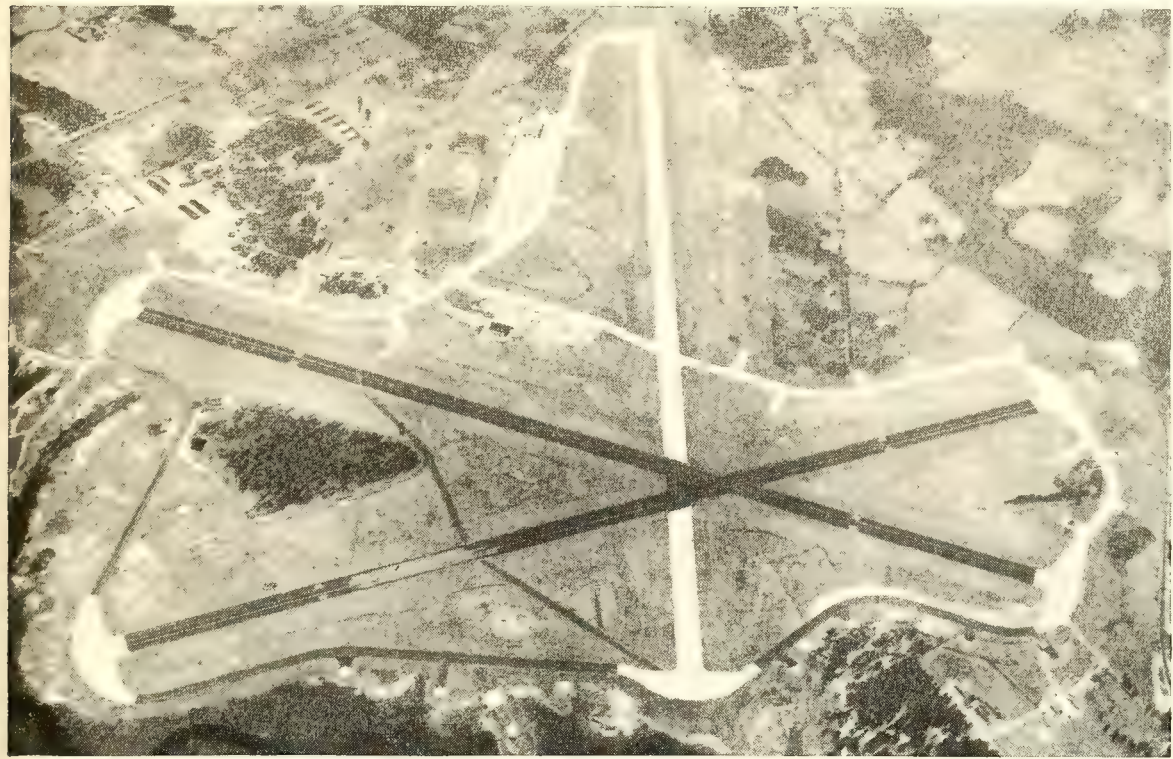

Building and Development

To house all these new residents, 1942 saw the addition of 7,800 or more new dwelling units. Of these, approximately 6,500 were provided by the U. S. Government. The additional houses were provided by private agencies, and there was a continuing volume of building. This new housing now offers a fine incentive for industrial expansion.

Over \$1,000,000 has been invested in an extension of the school system, it being estimated that the recent increase of population added approximately 5,000 students to the rolls. A similar sum has been spent for the extension and enlargement of hospital facilities to care for demands brought about by the addition to the population of the city and county. Approximately \$1,500,000 has been applied to reconstruction and enlargement of the municipal water works plant, which work has doubled the pumpage capacity from approximately 4,500,000 gallons to 8,000,000 gallons daily.

Wilmington a Growing Port; Foreign Trade

Wilmington possesses a fresh-water harbor 30 miles from the bar. Ice is an unknown quantity in the river, which has a deep channel, through which go big ocean steamers bound for Europe, Latin America and other foreign shores. The Federal Government recently completed the deepening of the channel in the river to 30 feet at mean low water (with approval of increase to a 32-foot depth and increase of width from 300 to 400 feet), as well as the Intra-Coastal Canal from Beaufort to Wilmington and from Wilmington to Miami, Fla., affording connections with Baltimore, Philadelphia, New York and Boston.

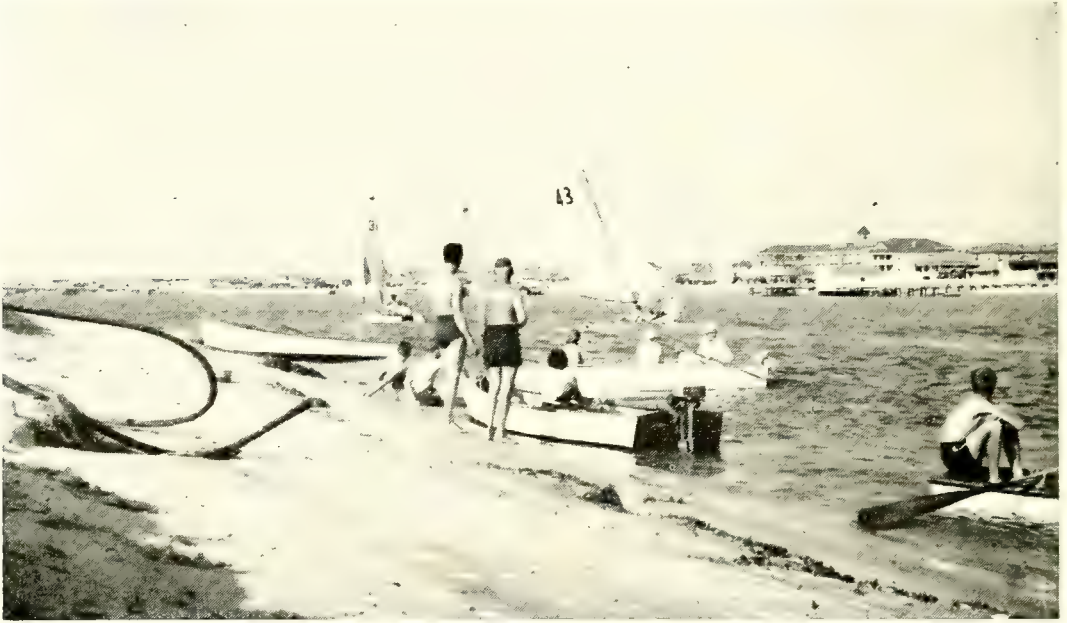

Aerial view of Bluethenthal Airport

Waterfront scene at Wilmington

Wilmington's exportations and importations are large and ever-growing, which mark a successful port. As a cotton port, it handles a satisfactory volume. Its imports cover a large field in variety and come from practically every quarter of the globe. Wilmington ranks as the second largest fertilizer and petroleum products port on the Atlantic Seaboard. Its volume of petroleum products is such that practically 75% of the state's consumption passes through the port. Wilmington also has a tremendous volume of molasses importation, which serves a half-dozen states, as well as an enormous amount of lumber handled in both coast-wise and foreign trade. Recent increase of port volume has been evidenced in large tobacco exports and growing imports of sugar, with vast shipments of nitrates and distribution of petroleum products.

Sailing races add thrills to recreation at Wrightsville Beach.

Wilmington is North Carolina's major seaport city and the gateway of the state's commerce and trade. North Carolina is vast in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory, the bountiful natural resources of which have hardly been touched. From the Middle West the Panama Canal possibly is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington are not subject to the dangers of Cape Hatteras.

Wilmington is the nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by 15 miles, and Savannah, by 30 miles.

The city has immense terminals which can load 16 ocean-going ships at one time, providing them with over 600,000 square feet of warehouse space.

Commerce on the Cape Fear River at and below Wilmington amounted to 2,823,614 tons in a recent year. This shows a satisfactory and continuing increase in volume, and indicates the growing importance of the Port of Wilmington.

South of Hatteras, thus assuring safety to vessels from Latin American and other countries to the south of the U. S., this port occupies a strategic position of advantage to those countries.

Wilmington has become a new and important inland waterway canal terminal since the completion, in the spring of 1932, of the extension from Beaufort to the Cape Fear River. This link provides accommodations for heavy traffic over a protected inland channel 12 feet deep and 90 feet wide, connecting up with points as far north as New York and Boston, and Miami, southward.

Industry, Transportation, Trade, Agriculture

Wilmington has two immense cotton compresses and two marine railways. The steel shipyard operated during the first World War by the George A. Fuller Co. has been converted into an industrial center. The concrete shipyard property is owned by the City and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for state-owned terminals and warehouses, whenever such are necessary. Wilmington now has one of the finest and most efficiently operated systems of private terminals at any Southern port, and the city's principal stevedoring corporation holds the record for all South Atlantic ports for quick dispatch of cargo.

With both water and rail transportation, thus affording quick hauls and low freight rates, and near the sources of raw materials, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and the Seaboard Air Line—place the city near the great coal fields and iron-producing zones.

Looking down the strand on a busy day at Wrightsville Beach.

The municipal building of the City of Wilmington is more than eighty years "young," and attracts the attention of all visitors because of its graceful design and attractive proportions.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; the Wilmington, Brunswick & Southern Railroad; the North Carolina Line; the Norfolk, Baltimore & Carolina Line; the Railway Express Agency, and foreign service. The two boat lines mentioned, each operate two services each week over the Intra-Coastal Canal between Wilmington, Norfolk and Baltimore.

Wilmington is the center of one of the greatest vegetable producing districts in the U. S. It produces nearly \$18,000,000 in early crops, bulbs, flowers and truck.

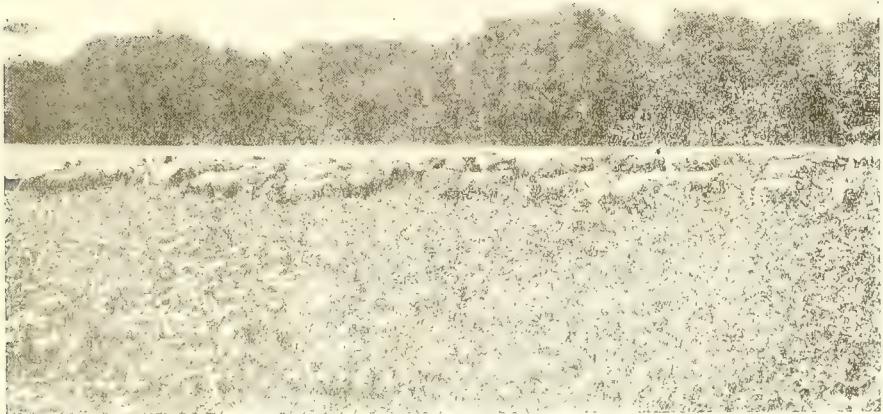

Comparatively few years ago no strawberries were raised except for domestic use; now Wilmington is the center of one of the largest strawberry-growing districts in the world. It is one of the largest lettuce-producing districts also, and a very large vegetable and peanut market (250 growing days per year, and equable rainfall).

Wilmington is the headquarters of the Atlantic Coast Line system, employing locally about 1,750 men and women. The monthly payroll of the Coast Line is nearly \$300,000.

Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city also is an important point on the Ocean Highway extending from Portland, Maine, to Miami, Fla.; the Calhoun Highway from Athens, Ga.; the Dixie Highway from Memphis, Tenn., to the ocean at Wilmington, and U. S. Routes 17, 74, 76, 117 and 421.

For disciples of old Izaak Walton, the salt and fresh waters in the Wilmington area prove sources of recreation and enjoyment, combined with catches of fish of varied species.

These pictures of the unusual program at Inversheil Farm, near Wilmington, demonstrate the ease of having year-round pasturage for economical production of milk. Crimson clover, lespedeza, giant white Dutch clover, and crab and Johnson grasses have lush growths.

Regardless of conditions, the past few years have witnessed big building operations. Among recent enterprises located here are several large fertilizer factories, North Carolina Shipbuilding Co., Ethyl-Dow Chemical Co., Gulf States Creosoting Co., Taylor-Colquitt Co., manufacturing creosoted products; Atlantic Refining Co., American Molasses Co., Southland Mfg. Co., Chilian Nitrates Co., Barrett Co., Nehi Bottling Co., Pepsi-Cola Bottling Co., Standard Oil Co., Texas Co., Gulf Refining Co., Cities Service Co., Pure Oil Co., National Oil Co., Shell Oil Co., Sinclair Oil Co., Republic Oil Co., North State Creosoting Co., Port City Hosiery Mills, France Neckwear Co., Alberta Textile Mills, Smith-Douglas Fertilizer Co., Socony-Vacuum Oil Co., Robertson Chemical Co., Chadbourne Hosiery Mills, Red Rock Cola, Canada Dry, "Spur," Garver Shirt Mfg. Co., and Burt Paper Box Mfg. Co., thus supplementing the city's already large number of such industries.

The Wilmington-New Hanover Airport is an exceptionally good one, with three intersecting paved runways of 7,000 feet in length. The Government spent approximately \$11,000,000 in enlarging and improving this facility during the war, and at this time it is equipped to handle practically

Orton Mansion, in Brunswick County, sixteen miles below Wilmington, was built by "King Roger" Moore in 1725. This splendid estate has been developed into one of the most magnificent camellia and azalea gardens in the South, and attracts thousands of visitors each season.

any type of ship. A brief description of the field follows: Area, 1,200 acres. Hangars, one of wood construction and one of metal construction. Repair shops, three, built of steel, and several operational buildings. Type of field, sod. A radio beam is now being installed at the port. The airport is located within $3\frac{1}{2}$ miles of the center of Wilmington, and is reached by paved highways from either side. Three commercial air lines operate from this field; one is a north-south line, one an intra-state organization, and the third east to west. The operation and management is now under the jurisdiction of the County Airport Authority.

An Ideal Place to Live

Wilmington has a wonderful climate; no extremes of heat or cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 53 inches; average annual clear days, 132 (New York rainfall, 44 inches; clear days, 118. New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for homeseekers.

Wilmington is a city of fine streets and parks, attractive homes, beautiful churches and modern schools, in a county netted by good roads. It is a place of up-to-date amusements, with some of the best beach resorts on the South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour bus service and causeway to Harbor Island just west of the beach. Carolina, Wilmington and Fort Fisher beaches, south of the city, are mainland resorts with many delightful attractions. Wilmington's five fine beaches are among the only mainland resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The five beaches attract approximately 300,000 visitors every summer.

The Wilmington Chamber of Commerce, P. O. Box 698, welcomes the opportunity of answering questions about the city, the county and the fine beaches. Write the Chamber of Commerce for any information needed. You are assured of prompt, cordial and co-operative service, geared to a program of community development.

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, after years of successful operation, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

Out of Sight - Out of Mind - Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!
Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recog-
nized by all business men. It is astonishing to see how a firm or product,
however meritorious, will slip into the limbo of the forgotten if not persistently
advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators."

Out of Sight - Out of Mind - Out of Business

*The importance of keeping firm and product names in the public eye is recog-
nized by all business men. It is astonishing to see how a firm or product,
however meritorious, will slip into the limbo of the forgotten if not persistently
advertised.*

**The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages**

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recog- nized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will, trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

SPECIAL MAILING LISTS

R. L. Polk & Co. makes available special mailing lists, built from the latest available information. Among unique services provided by the compiler of this City Directory are lists of:

BIRTHS

If you have a product or a service for the baby market you will want to know to whose home new babies have been delivered. Birth lists are available either nationally, or in metropolitan New York and northern New Jersey. The date of birth, name or sex of the child, parents' name, street and city address, and telephone number (if desired) can be provided. Keep up with the baby market through this unique listing service.

ENGAGEMENTS

Names and addresses of brides-to-be . . . of her parents . . . and of the young man in the case . . . are available throughout the country, or in individual states or territories such as metropolitan New York or northern New Jersey. This service is provided weekly. Invaluable information for furniture, clothing and gift merchandisers. Information is provided approximately three months prior to wedding date . . . just when the engaged couple are buying and shopping for their future needs.

HOME BUYERS

To sell merchandise or services to new home buyers you must know who they are and where they live. R. L. Polk & Co. supplies weekly lists of new home owners. The information is available by county in metropolitan New York and northern New Jersey. Advance information is provided for those who have purchased or are building homes for personal occupancy and have not yet taken possession. List data includes present address and phone number, approximate date of removal and location of newly purchased property and price paid.

BUSINESS TENANCY SERVICE

Through R. L. Polk & Co. it is possible to obtain, tri-weekly, advance information concerning new firms about to enter business and established firms who, due to expansion, are about to move. This unique information is available for metropolitan New York and northern New Jersey. Data includes name of the firm, name of a chief executive, the type of business, present address, phone numbers, and the new address.

In addition to these special mailing lists, R. L. POLK & CO. provides mailing lists of more than 7,000 classifications.

YOUR OWN *Magazine*—

- BUILDING GOOD WILL
- CONTACTING PROSPECTS AND CUSTOMERS REGULARLY
- DOING A BETTER SALES JOB

If you manufacture a product or have a service that is sold nationally, why not investigate the many advantages of a consumer magazine to provide a continuing contact with your prospects and customers? There's no better medium for building sales volume, holding customer good will, and in bringing in new customers.

R. L. Polk & Company's Direct Mail Advertising Division now handles all creative, editing, printing, dealer imprinting, list compilation, addressing and complete mailing operations for a select group of national organizations, issuing monthly, quarterly and semi-monthly owner and consumer magazines with a combined circulation of more than 3,000,000 copies monthly. A staff of experienced consumer magazine and market experts is at hand to consult with you on what you may expect from such an advertising program. If yours is a publishing problem, Polk can do it better.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

*A Unique Service Provided
By The Publishers of Your City Directory*

*T*he publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS'
GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED ★

Out of Sight!

Out of Mind!

Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Use Our Library of OUT-OF-TOWN CITY DIRECTORIES

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

Providing Exclusive Service to the Colored Population of
Greater Eastern North Carolina for the Past Half Century.

Offices

WILMINGTON, ELIZABETHTOWN, LUMBERTON
WHITEVILLE, JACKSONVILLE, BURGAW, GARLAND
WALLACE and WARSAW

WHAT TO DO WHEN YOU NEED FUNERAL SERVICE

1. Choose a reliable sympathetic Funeral Director, in whom you can place Complete Confidence.
2. Bear in mind it is not what you pay, but what you receive that determines value. That is a vital point.
3. To avoid regrets later, discuss possible requirements before actual need. Many families are doing this today.

We should be glad to have you check these points against
services we have made available to many in this community.

While our complete funeral services are priced in accordance with your
requirements, it is possible to have the benefits of our experience and
facilities for as little as \$75.00.

We guarantee all materials and services to be exactly as
represented.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

**DO YOUR EMPLOYERS FURNISH YOU WITH THE
LATEST EDITION OF THE CITY DIRECTORY?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CITY DIRECTORY USAGE SOARS TO NEW HIGH!

Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future—these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

Out of Sight - Out of Mind - Out of Business
The importance of keeping firm and product names in the public eye is recog-
nized by all business men. It is astonishing to see how a firm or product,
however meritorious, will slip into the limbo of the forgotten if not persistently
advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie the knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

HILL'S WILMINGTON

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1948-49

Copyright, 1948, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trim them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business
The importance of keeping firm and product names in the public eye is recog-
nized by all business men. It is astonishing to see how a firm or product,
however meritorious, will slip into the limbo of the forgotten if not persistently
advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.
